

Disney Princesses

As of 2015, there were 11 Disney Princesses. The original Disney Princesses were Snow White, Cinderella, Aurora, Ariel, Belle, Jasmine, Pocahontas, Mulan, and Tinker Bell. However, Tinker Bell was later removed from this list. Snow White was chosen as the original Disney Princess. Snow White is also supposed to be 14 years old. This makes her the youngest Disney Princess. The second youngest is Jasmine. She is supposed to be 15 years old. Snow White is also the only Princess to have her own star on the Hollywood Walk of Fame. She was given this in 1987.

Recently, Tiana, Rapunzel, and Merida have been added to this list. Many people think Anna and Elsa from the popular movie Frozen will be added to this list too. The quietest princess is Aurora. She only says 18 lines in Sleeping Beauty, and she is only on screen for 18 minutes. Finally, do you know which Disney Princess was not born a human? That's right! It is the character in the picture, Ariel. She was born as a mermaid.
