

# Random acts of kindness

“Imagine a world.

Where people look out for each other.

Where we all pay it forward.

Where success is measured in selfless acts.

Where kindness is the philosophy of life.”

These are the ideas of the people at [randomactsofkindness.org](http://randomactsofkindness.org). This is a quote from a group that is trying to make the world a better place. They believe that kindness is the key to making things happen. The people in this group work very hard to make this come true.

The people at random acts of kindness believe that there is a lot of good in the world. Their aim is to help people notice this goodwill. They say that they want to remind people of all the good things. They believe that love is the strongest emotion. They also believe that kindness can help to stop many of the bad things that happen. They want people’s lives to be full of joy, love and kindness. This is not an easy thing to do but they hope people will join them and try to help make the world a better place.
